DEFIANTLY THINKS OUTSIDE THE CUBE.

12.5m | 4 | 2 | 2

Named after the creative studio where Mr Puzzle Cube himself, Erno Rubik, did his best work, Rubik's Studio is a retro home with some surprising twists and turns. A display that defiantly thinks outside the cube, Rubik's Studio reworks 70s stylings to produce a contemporary home that's big on comfort.

Just like the cube itself, Rubik's Studio is deceptively simple, with the square, symmetrical layout only hinting at the curved intricacy of the overall design. The end result? A home that challenges convention and rewards creativity – one turn at a time.

Rubik's Studio is a uniquely edgy design with an easy connection to the outdoor space. The entire home has been designed to be open to the outside, wherever you are.

Curved walls soften the edges of Rubik's Studio, which has an abundance of comfortable living areas over the two floors. On the ground floor, there's even a self-contained guest suite with views to the backyard.

Head up the feature concrete staircase and you'll find three more beautiful bedrooms, plus a decadently comfortable living area.

Designed to work well on a squat, square block, Rubik's Studio is a nostalgically comfortable home that makes all the right moves.
